

## ***MV Credit hosts career enrichment day with Groundwork*** *24th July 2018*

---

MV Credit is delighted to have hosted a career enrichment day in co-operation with Groundwork, a London-based charity that, amongst other initiatives, works with people living in London's most vulnerable communities by helping create jobs and providing employment skills training for young adults.

The event, held at MV Credit's London offices as part of the charity's 'Improving Peoples Prospects – Aspire Higher' program, saw ten 15-year-old students from Walthamstow Academy spend one day with various members of MV Credit's team. The program helps young adults overcome barriers they might face in education or employment and supports them to achieve their full potential.

Throughout the day, MV Credit's staff held workshops with the students, with the aim of lifting the veil on what the firm does, providing an introduction to investing and portfolio construction, in addition to more general career development classes including goal setting, interview skills and CV writing.

"It is important to the continued success of any firm, to attract the best talent regardless of background. I am proud that MV Credit supports organisations such as Groundwork, who do excellent work ensuring that bright students do not find their route into employment blocked. By sharing our own knowledge, experiences and achievements we hope to have widened the students understanding of the working world", said Rafael Calvo, Managing Partner at MV Credit.

In addition, MV Credit has made a donation to Groundwork for the great work that they do supporting Londoners to find sustainable long-term solutions to the challenges they face.
